[1] Not approved for fire and smoke protection doors.

[2] **Attention:** in many applications, the opening restriction is not a substitute for a doorstop!

[3] Not required if a FM mechanical hold-open device exists.

[4] Only in combination with fire protection cover K-19462-00-0-0. Please order separately.

Components shown in grey are optional and have to be ordered separately.

With 2-leaf doors it may be necessary to use a carrier bar.
