WINDOW TECHNOLOGY | WITH 15/20 MM SASH GROOVE

The ALU-JET product family for aluminium windows

Securing technology for you

For universal use: The ALU-JET central locking system

The principle of the central locking system

With the **ALU-JET central locking system family**, the GU group supplies a hardware system which can be used universally for all window shapes made from aluminium with a **15/20 mm hardware groove**: from Tilt&Turn windows to Horizontal-Pivot and Vertical-Pivot windows through to Tilt&Slide and Fold&Slide balcony-doors. Special shapes, such as round and pitched windows are possible using a small number of additional components.

**Universally applicable
for all opening methods**

Tilt&Turn hardware

**Tilt&Slide hardware
Parallel-Slide hardware**

**Parallel-Slide lightweight
hardware**

Fold&Slide hardware

**Horizontal-Pivot hardware
Vertical-Pivot hardware**

**Fanlight opening systems
Ventilation systems**

The central locking system is put together individually for the respective window type from the ALU-JET central locking system family and supplemented with the frame parts.

+ Hinge-side
Turn handle

+ Set of bogies
Profiles set
Turn handle

+ Basic hardware set
Additional set SH (per size)
Additional set SW (per size)
Frame cam
Turn handle

+ Basic hardware set
Set of sash hinges
Profiles set
Turn handle

+ Horizontal-Pivot hardware or
Vertical-Pivot hardware
