**Security has a name,  
or to be more precise, a brand – BKS**

BKS GmbH, a member of the Gretsch-Unitas group, stands for more than 100 years of experience in the development and manufacturing high quality locking systems. Ever since the round cylinder was developed in 1938, BKS GmbH has been, and still remains today, a market leader in the field of locking technology and security.

BKS locking systems offer individual tailor-made solutions. They are manufactured according to exacting quality standards. Opting for a BKS master key system, you choose outstanding quality of function and design. Countless patents and certificates testify to the innovative prowess of all BKS products. They give you flexible design options, also when retrofitting in existing buildings.

*„ Whenever convenience, protection and flexibility are called for, BKS has the right system or appropriate combination of several systems.*

## Reversible key systems

## Conventional systems

### janus

#### Maximum security for the highest demands

- Dimple technology
- Modular cylinder construction

### nuvius

#### Versatile with state-of-the-art technology

- More security thanks to copy protection features
- Versatile application

### livius

#### High convenience in every application range

- Patented profile series
- Key duplication protection due to innovative channel for slider

### detect3000

#### Proven strength for more security

- Various equipment and designs
- High flexibility

### helius

#### Small and flexible for optimum protection

- Greater convenience for easy opening
- Protection against bumping as standard

### PZ 88

#### Compact standard cylinder

- Paracentric key profile
- Engraved key coding

# A cylinder system for every requirement
