## Security has a name, or to be more precise, a brand – BKS

BKS GmbH, a member of the Gretsch-Unitas group, stands for more than 100 years of experience in the development and manufacturing high quality locking systems. Ever since the round cylinder was developed in 1938, BKS GmbH has been, and still remains today, a market leader in the field of locking technology and security.

BKS locking systems offer individual tailor-made solutions. They are manufactured according to exacting quality standards. Opting for a BKS master key system, you choose outstanding quality of function and design. Countless patents and certificates testify to the innovative prowess of all BKS products. They give you flexible design options, also when retrofitting in existing buildings.

” The new nuvius cylinder system covers a wide range of products and therefore offers the highest possible flexibility and adapts to more or less any security requirements.

## Great all-rounder featuring state-of-the-art technology

When state-of-the-art technology can be reconciled with individual requirements, the result is optimum security. nuVIUS is highly flexible and can therefore satisfy all security expectations for your property.

This patented all-rounder is particularly impressive due to the huge range of applications, whether they be in large commercial projects or to protect your private property. Different copy protection versions and locking bars with 4 or 8 interacting pins are available, which gives you extra security.

You can choose between the nuVIUS, nuVIUS SL and nuVIUS SLX series which provide additional options for protection against manipulation.

Configure your protection according to your individual requirements!

### FEATURES

- Versatility is the key: extensive range gives plenty of scope for individual requirements.
- Reliability makes the difference: by using thicker keys made of nickel silver the nuVIUS system is subject to less wear and is more stable.
- The orange-coloured ball in the key head delivers design with recognition value and stands for tried-and-tested brand quality by BKS.
- A new patent and concealed or movable copy protection protects them legally and technically against illegal key duplication.
- Right up to date: nuVIUS can be combined with the ixalo | SE electronic locking system.
- Also the right choice for security hardware with a cylinder cover due to extended key shank.
- Protection against lock picking and bumping as standard
- First class drilling/picking protection
- The nuVIUS SL and SLX series offer an even higher degree of protection against manipulation and make even more complex master key systems possible.

### nuVIUS: the right choice – not just in terms of security

When you opt for nuVIUS you opt for a high-quality versatile locking system. A genuine all-rounder that develops its full potential in master key systems in particular. The system has been extended to include special locks, padlocks and furniture locks to form an all-in-one functional solution.

**Copy protection:** no compromises when it comes to protection against illegal copies with selectable concealed or movable copy protection version.

**Protection against manipulation:** hardened anti-picking and anti-bumping pins provide rock solid protection at all times, additional protection is also available with optional drilling/picking protection and the nuVIUS SL and nuVIUS SLX versions.

**Flexibility:** mechanical, mechatronic and electronic access points can be perfectly combined by integrating the electronic cylinder system ixalo | SE.

BKS offers documented security – verifiably protected. If you need a new key or cylinder, you can safely and reliably verify your identity by presenting the BKS security card to your specialist dealer personally and also very easily and conveniently from home with the new BKS identification app.
